

ASHRAE JOURNAL 1996 EDITORIAL INDEX

Technical articles by author and subject

AUTHOR

Amrane, Karim

Recycling of Air-Conditioning and Refrigeration Equipment in the US; with Glenn C. Hourahan; August p.51

Avery, Gil

Control of VAV Systems with DX Cooling: A Digital to Analog Conversion; June p.59

Bare, Jane C.

Identifying and Evaluating Alternatives to CFC-114 for Navy Shipboard Chillers; January p.44

Beaudin, Dennis

Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; May p.35

Bodkin, Taylor B.

Technology Award Case Study: A Thermal Storage System For 3 Apartment Buildings; July p.52

Bodenhamer, Greg

Electrical Protection for Motor Operated Equipment; Electrical Engineering for HVAC&R Engineers; p.24; November Supplement to ASHRAE Journal.

Bullock, Charles E.

The Sistine Chapel: HVAC Design for Special-Use Buildings; with Frank Philip and Walter Pennati; April p.49

Bushby, Steven T.

Testing the Conformance and Interoperability of BACnet Systems; November p.45

Cane, Douglas

Experiences with Commercial Ground-Source Heat Pumps; with Andrew Morrison and Blair Clemes; July p.31

Carpenter, Stephen

Technology Award Case Study: Waterloo Region Green Home; September p.43

Clemes, Blair

Experiences with Commercial Ground-Source Heat Pumps; with Andrew Morrison and Douglas Cane; July p.31

Chapman, Kirby

Radiant Heating for Thermal Comfort; with Richard D. Watson; July p.24

Chen, Allan

Building Data Visualization for Diag-

nostics; with Steven Meyers, Evan Mills, and Laura Demsetz; June p.63

Chen, Jiufa

Pressure Enthalpy Diagrams For Alternative Refrigerants; with H. Kruse; October p.50

Christian, Jeffrey E.

Thermal Performance and Wall Ratings; with Jan Kosny; March p.56

Coad, William J.

Indoor Air Quality: A Design Parameter; June p.39

Cole, John P.

Plant Uses Closed-Capture Technology to Improve Indoor Air Quality Reduce Energy; March p.44

Cowern, Edward H.

Types of Motors; Practical Guide to Electrical Engineering for HVAC&R Engineers; p.6; November; Supplement to ASHRAE Journal.

Cox, Robert L.

Technology Award Case Study: Retrofit for a College Campus; November p.59

Demsetz, Laura

Building Data Visualization for Diagnostics; with Steven Meyers, Evan Mills, and Allan Chen; June p.63

Dustin, Rick

Modernizing Sports Facilities; September p.32

Elovitz, David M.

Evaluating Smoke Control and Smoke Management Systems; March p.46

Elovitz, Kenneth M.

Heat Gain/Cooling Load from Electrical Equipment; Electrical Engineering for HVAC&R Engineers; p.21; November Supplement to ASHRAE Journal.

Eltez, Muhammed

Advances in Geothermal Energy Use; with Ibrahim B. Kilis; October p.40

Evans, Richard A.

Basic Tips for Duct Design; with Robert J. Tsai; July p.37

Fountain, Marc E.

A Thermal Comfort Prediction Tool; with Charlie Huizenga; September p.39

Gengler, Mark

Technology Award Case Study: Envi-

ronmental Conditioning for Textile Yarn-Spinning Mill; June p.74

Gorman, Stanley M.

Variable Speed Drives; Electrical Engineering for HVAC&R Engineers; p.30; November Supplement to ASHRAE Journal.

Hattermer, Thomas L.

Technology Award Case Study: Chilled Water System Introduces Savings; December p.55

Hill, James E.

Service to Members Is Our Strategy for Success; August p.46

Hourahan, Glenn C.

Recycling of Air-Conditioning and Refrigeration Equipment in the US; with Karim Amrane; August p.51

Huizenga, Charlie

A Thermal Comfort Prediction Tool; with Marc E. Fountain; September p.39

Janczewski, Jolinda N.

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; with W. Mark Pierce, Brian Rothlisberger, Mike Pelton and Kristen Kunstel; November p.51

Joffe, Michael A.

Chemical Filtration of Indoor Air: An Application Primer; February p.42

Johnson, Donald A.

Ozone Application for Cooling Tower Water; with Richard J. Strittmatter and Bo Yang; May p.27

Kavanaugh, Steve

Water Loop Design for Ground-Coupled Heat Pumps; May p.43

Kenyon, Dean

Technology Award Case Study: Heat Recovery Incinerator for a Community Hospital; December p.49

Kilis, Ibrahim B.

Advances in Geothermal Energy Use; with Muhammed Eltez; October p.40

Kirsner, Wayne

3 GPM/Ton Condenser Water Flow Rate: Does It Waste Energy?; February p.63

Kohl, Robert E.

Basic Motor Starters for HVAC Design Professionals; February p.59

ASHRAE JOURNAL 1996 EDITORIAL INDEX

3 GPM/Ton Condenser Water Flow Rate: Does It Waste Energy?; February p.63

Kohl, Robert E.

Basic Motor Starters for HVAC Design Professionals; February p.59

1996 EDITORIAL INDEX

Kosny, Jan

Thermal Performance and Wall Ratings; with Jeffrey E. Christian; March p.56

Kruse, H.

Pressure Enthalpy Diagrams For Alternative Refrigerants; with Jiufa Chen; October p.50

Kuehn, Thomas H.

Construction/Renovation Influence On Indoor Air Quality; October p.22

Kunstel, Kristen

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; with W. Mark Pierce, Jolinda N. Janczewski, Brian Roethlisberger, and Mike Pelton; November p.51

Lawson, Carl N.

The Price of Commissioning Equals Cost Savings; January p.30

Lewis, Warren H.

What's All This About Harmonics?; Electrical Engineering for HVAC&R Engineers; p.36; November Supplement to ASHRAE Journal.

Louria, David

Technology Award Case Study: Solving the Energy Dilemma at Seven Bridges Ice Arena; August p.67

Manning, Ken

Technology Award Case Study: Opportunity for Cogeneration; October p.57

Marshall, John W.

Health Care Ventilation Standard: Air Changes per Hour or CFM/Patient?; September p.27

Meyers, Steven

Building Data Visualization for Diagnostics; with Evan Mills, Allan Chen and Laura Demsetz; June p.63

Mills, Evan

Building Data Visualization for Diagnostics; with Steven Meyers, Allan Chen and Laura Demsetz; June p.63

Morrison, Andrew

Experience with Commercial Ground-Source Heat Pumps; with Douglas Cane, Blair Clemes; July p.31

Nagengast, Bernard M.

The History of Sealed Refrigeration Systems; January p.37

Nelson, Ron

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; with Ba-

gas Wardano; October p.32

Newman, H. Michael

Integrating Building Automation and Control Products Using the BACnet™ Protocol; November p.36

Nowakowski, Gary

Unitary Engine-Driven Heat Pumps: A Status Update; December p.42

O'Neal, Edward J.

Technology Award Case Study: Thermal Storage System Achieves Operation and First-Cost Savings; April p.59

Parks, R. Lee

The Basics of Industrial Ventilation Design; November p.29

Pelton, Mike

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; with W. Mark Pierce, Jolinda N. Janczewski, Brian Roethlisberger, and Kristen Kunstel; November p.51

Pennati, Walter

The Sistine Chapel: HVAC Design for Special-Use Buildings; with Charles Bullock and Frank Phillip; April p.49

Phillip, Frank

The Sistine Chapel: HVAC Design for Special-Use Buildings; with Charles Bullock and Walter Pennati; April p.49

Pierce, W. Mark

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; with Jolinda N. Janczewski, Brian Roethlisberger, Mike Pelton and Kristen Kunstel; November p.51

Radermacher, Richard

Oil Return Characteristics of Refrigerant Oils in Split Heat Pump System; with Sonny G. Sundaresan; August p.57

Roethlisberger, Brian

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; with W. Mark Pierce, Jolinda N. Janczewski, Mike Pelton and Kristen Kunstel; November p.51

Sandman, Robert L.

What Causes Electric Motor Failures?; Practical Guide to Electrical Engineering for HVAC&R Engineers; p.17; November Supplement to ASHRAE Journal.

Scott, Mark C.

Controlled Climate for Preserving Art; May p.39

Shuler, Marc

Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; March p.39

Sorensen, Thomas C.

Refrigerant Leak Detection in Mechanical Rooms; August p.63

Stebbins, Wayne L.

Motor Efficiency and Performance; Practical Guide to Electrical Engineering for HVAC&R Engineers; p.11; November Supplement to ASHRAE Journal.

Strittmatter, Richard J.

Ozone Application for Cooling Tower Water; with Bo Yang and Donald A. Johnson; May p.27

Sundaresan, Sonny G.

Oil Return Characteristics of Refrigerant Oils in Split Heat Pump System; with Richard Radermacher; August p.57

Sundell, Jan

What We Know, and Don't Know About Sick Building Syndrome; June p.51

Taylor, Steven T.

Determining Ventilation Rates: Revisions to Standard 62-1989; February p.52

Taylor, Steven T.

Series Fan-Powered Boxes: Their Impact on Air Quality and Comfort; July p.44

Tsal, Robert J.

Basic Tips for Duct Design; with Richard A. Evans; July p.37

Todesco, G.

Super Efficient Buildings: How Low Can You Go?; December p.35

Torroll, Andrew

UL Listed HVAC&R Equipment; Practical Guide to Electrical Engineering for HVAC&R Engineers; p.19; November Supplement to ASHRAE Journal.

Warden, David

Dual Fan Dual Duct: Better Performance and Lower Costs; January p.36

Wardano, Bagas

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; with Ron Nelson; October p.32

Watson, Richard D.

Radiant Heating for Thermal Comfort;

1996 EDITORIAL INDEX

with Kirby Chapman; July p.24

Williams, C. Dave

Optimizing TES Chiller Management; April p.43

SUBJECT

Absorption

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; Ron Nelson and Bagas Wardano; October p.32

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Air Cleaning

Chemical Filtration of Indoor Air: An Application Primer; Michael A. Joffe; February p.42

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; W. Mark Pierce, Jolanda N. Janczewski, Brian Roethlisberger, Mike Pelton, and Kristen Kunstel; November p.51

Air Conditioner

Recycling of Air-Conditioning and Refrigeration Equipment in the US; Karim Amrane and Glenn C. Hourahan; August p.51

Air Conditioning

The Sistine Chapel: HVAC Design for Special-Use Buildings; Charles E. Bullock, Frank Phillip and Walter Pennati; April p.49

Recycling of Air-Conditioning and Refrigeration Equipment in the US; Karim Amrane and Glenn C. Hourahan; August p.51

Air Cooling

Control of VAV Systems with DX Cooling: A Digital to Analog Conversion; Gil Avery, June p.59

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; Ron Nelson and Bagas Wardano; October p.32

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Air Distribution

The Basics of Industrial Ventilation Design; R. Parks Lee; November p.29

Air Flow

Determining Ventilation Rates: Revisions to Standard 62-1989; Steven T.

Yang, Bo

Ozone Application for Cooling Tower Water; with Richard J. Strittmatter and Donald A. Johnson; May p.27

Taylor; February p.52

Control of VAV Systems with DX Cooling: A Digital to Analog Conversion; Gil Avery, June p.59

Series Fan-Powered Boxes: Their Impact on Air Quality and Comfort; Steven T. Taylor; July p.44

Health Care Ventilation Standard: Air Changes per Hour or CFM/Patient?; John W. Marshall; September p.27

Construction/Renovation Influence On Indoor Air Quality; Thomas H. Kuehn; October p.22

The Basics of Industrial Ventilation Design; R. Parks Lee; November p.29

Air Handling

Determining Ventilation Rates: Revisions to Standard 62-1989; Steven T. Taylor; February p.52

Evaluating Smoke Control and Smoke Management Systems; David M. Elvitz; March p.46

Indoor Air Quality: A Design Parameter; William J. Coad; June p.39

Control of VAV Systems with DX Cooling: A Digital to Analog Conversion; Gil Avery, June p.59

Series Fan-Powered Boxes: Their Impact on Air Quality and Comfort; Steven T. Taylor; July p.44

Health Care Ventilation Standard: Air Changes per Hour or CFM/Patient?; John W. Marshall; September p.27

The Basics of Industrial Ventilation Design; R. Parks Lee; November p.29

Technology Award Case Study: Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Air Quality

Chemical Filtration of Indoor Air: An Application Primer; Michael A. Joffe; February p.42

Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39

Alternative Refrigerants

Technology Award Case Study: Plant Uses Closed-Capture Technology to Improve Indoor Air Quality Reduce Energy; John P. Cole; March p.44

Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Zipse, Donald W.

Conditions to Be Aware of to Prevent a Boom; Electrical Engineering for HVAC&R Engineers; p.43; November Supplement to ASHRAE Journal.

Technology Award Case Study: Controlled Climate for Preserving Art; Mark C. Scott; May p.39

What We Know, and Don't Know About Sick Building Syndrome; Jan Sundell; June p.51

Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.53

Technology Award Case Study: Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Ammonia

Technology Award Case Study: Solving the Energy Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Azeotrope

Pressure Enthalpy Diagrams For Alternative Refrigerants; H. Kruse and Jiu-fa Chen; October p.50

BACnet™

BACnet™: Questions and Answers; William R. Coker, February p.31

BACnet™: Integrating Building Automation and Control Products Using the BACnet™ Protocol; H. Michael Newman; November p.36

Testing the Conformance and Interoperability of BACnet™ Systems; Steven T. Bushby; November p.45

Boilers

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Building Automation

BACnet™: Integrating Building Automation and Control Products Using the BACnet™ Protocol; H. Michael Newman; November p.36

Testing the Conformance and Interoperability of BACnet™ Systems; Steven T. Bushby; November p.45

Super Efficient Buildings: How Low Can You Go?; G. Todesco, December p.??

Building Codes

Technology Award Case Study: Retrofit for a College Campus; Robert L. Cox; November p.59

Cooling Tower

Ozone Application for Cooling Tower Water; Richard J. Strittmatter, Bo Yang and Donald A. Johnson; May p.27
Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Corrosion

Ozone Application for Cooling Tower Water; Richard J. Strittmatter, Bo Yang and Donald A. Johnson; May p.27

Dampers

Basic Tips for Duct Design; with Richard A. Evans and Robert J. Tsai; July p.37
Technology Award Case Study: Retrofit for a College Campus; Robert L. Cox; November p.59

Dehumidification

Technology Award Case Study: Solving the Energy Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Ducts

Dual Fan, Dual Duct Systems; David Warden; January p.36
Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39
The Sistine Chapel: HVAC Design for Special-Use Buildings; Charles E. Bullock, Frank Phillip and Walter Pennati; April p.49
Controlled Climate for Preserving Art; Mark C. Scott; May p.39
Basic Tips for Duct Design; with Richard A. Evans and Robert J. Tsai; July p.37

Economics

The Price of Commissioning Equals Cost Savings; Carl N. Lawson; January p.30
Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39
Technology Award Case Study: Plant Uses Closed-Capture Technology to Improve Indoor Air Quality Reduce Energy; John P. Cole; March p.44
Technology Award Case Study: Thermal Storage System Achieves Operation and First-Cost Savings; Edward J. O'Neal; April p.59
Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35
Controlled Climate for Preserving Art; Mark C. Scott; May p.39
Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74
Series Fan-Powered Boxes: Their Impact on Air Quality and Comfort; Steven T. Taylor; July p.44
Technology Award Case Study: A Thermal Storage System For 3 Apartment Buildings; Taylor B. Bodkin; July p.52
Recycling of Air-Conditioning and Refrigeration Equipment in the US; Ka-

rim Amrane and Glenn C. Hourahan; August p.51

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; Ron Nelson and Bagas Wardano; October p.32

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Electric

Technology Award Case Study: Opportunity for Cogeneration; Ken Manning; October p.57
Types of Motors; Practical Guide to Electrical Engineering for HVAC&R Engineers; Edward H. Cowern; November; pg. 6.; Supplement to ASHRAE Journal.
Motor Efficiency and Performance; Practical Guide to Electrical Engineering for HVAC&R Engineers; Wayne L. Stebbins; p.11; November; Supplement to ASHRAE Journal.
What Causes Electric Motor Failures?; Practical Guide to Electrical Engineering for HVAC&R Engineers; Robert L. Sandman; p.17; November Supplement to ASHRAE Journal.
UL Listed HVAC&R Equipment; Practical Guide to Electrical Engineering for HVAC&R Engineers; Andrew Torroll; p.19; November Supplement to ASHRAE Journal.
Heat Gain/Cooling Load from Electrical Equipment; Electrical Engineering for HVAC&R Engineers; Kenneth M. Elovitz; p.21; November Supplement to ASHRAE Journal.
Electrical Protection for Motor Operated Equipment; Electrical Engineering for HVAC&R Engineers; Greg Bodenhamer; p.24; November Supplement to ASHRAE Journal.
Variable Speed Drives; Electrical Engineering for HVAC&R Engineers; Stanley M. Gorman; p.30; November Supplement to ASHRAE Journal.
What's All This About Harmonics?; Electrical Engineering for HVAC&R Engineers; Warren H. Lewis; p.36; November Supplement to ASHRAE Journal.
Conditions to Be Aware of to Prevent a Boom; Electrical Engineering for HVAC&R Engineers; Donald W. Zipse; p.43; November Supplement to ASHRAE Journal.
Super Efficient Buildings: How Low Can You Go?; G. Todesco, December p.35
Technology Award Case Study: Heat-

Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Energy

Dual Fan, Dual Duct Systems; David Warden; January p.36

Determining Ventilation Rates: Revisions to Standard 62-1989; Steven T. Taylor; February p.52

3 GPM/Ton Condensor Water Flow Rate: Does It Waste Energy?; Wayne Kirsner; February p.63

Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39

Technology Award Case Study: Plant Uses Closed-Capture Technology to Improve Indoor Air Quality Reduce Energy; John P. Cole; March p.44

Thermal Performance and Wall Ratings; Jeffrey E. Christian and Jan Kosny; March p.56

Technology Award Case Study: Thermal Storage System Achieves Operation and First-Cost Savings; Edward J. O'Neal; April p.59

Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Controlled Climate for Preserving Art; Mark C. Scott; May p.39

Water Loop Design for Ground-Coupled Heat Pumps; Steve Kavanaugh; May p.43

Indoor Air Quality: A Design Parameter; William J. Coad; June p.39

Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74

Radiant Heating for Thermal Comfort; with Richard D. Watson and Kirby Chapman; July p.24

Technology Award Case Study: A Thermal Storage System For 3 Apartment Buildings; Taylor B. Bodkin; July p.52

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Technology Award Case Study: Opportunity for Cogeneration; Ken Manning; October p.57

Super Efficient Buildings: How Low Can You Go?; G. Todesco, December p.35

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December

p.49

Technology Award Case Study: Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Energy Awards

Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39

Technology Award Case Study: Plant Uses Closed-Capture Technology to Improve Indoor Air Quality Reduce Energy; John P. Cole; March p.44

Technology Award Case Study: Thermal Storage System Achieves Operation and First-Cost Savings; Edward J. O'Neal; April p.59

Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Controlled Climate for Preserving Art; Mark C. Scott; May p.39

Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74

Technology Award Case Study: A Thermal Storage System For 3 Apartment Buildings; Taylor B. Bodkin; July p.52

Technology Award Case Study: Solving the Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Technology Award Case Study: Opportunity for Cogeneration; Ken Manning; October p.57

Technology Award Case Study: Retrofit for a College Campus; Robert L. Cox; November p.59

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Energy Calculation

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Pressure Enthalpy Diagrams For Alternative Refrigerants; H. Kruse and Jiufa Chen; October p.50

Super Efficient Buildings: How Low Can You Go?; G. Todesco, December p.35

Technology Award Case Study: Heat-

Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Energy Conservation

Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39

Technology Award Case Study: Plant Uses Closed-Capture Technology to Improve Indoor Air Quality Reduce Energy; John P. Cole; March p.44

Technology Award Case Study: Thermal Storage System Achieves Operation and First-Cost Savings; Edward J. O'Neal; April p.59

Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Controlled Climate for Preserving Art; Mark C. Scott; May p.39

Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74

Technology Award Case Study: A Thermal Storage System For 3 Apartment Buildings; Taylor B. Bodkin; July p.52

Technology Award Case Study: Solving the Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Technology Award Case Study: Opportunity for Cogeneration; Ken Manning; October p.57

Technology Award Case Study: Retrofit for a College Campus; Robert L. Cox; November p.59

Super Efficient Buildings: How Low Can You Go?; G. Todesco, December p.35

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Environment

Recycling of Air-Conditioning and Refrigeration Equipment in the US; Karim Amrane and Glenn C. Hourahan; July p.51

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Construction/Renovation Influence On Indoor Air Quality; Thomas H. Kuehn; October p.22

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; W. Mark Pierce, Jolanda N.

1996 EDITORIAL INDEX

Janczewski, Brian Roethlisberger, Mike Pelton, and Kristen Kunstel; November p.51.

Evaporation

Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74

Modernizing Sports Facilities; Rick Dustin; September p.32

Evaporators

Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74

Fans

Dual Fan, Dual Duct Systems; David Warden; January p.36

Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39

Evaluating Smoke Control and Smoke Management Systems; David M. Elowitz; March p.46

Building Data Visualization for Diagnostics; with Evan Mills, Allan Chen and Laura Demsetz; June p.63

Series Fan-Powered Boxes: Their Impact on Air Quality and Comfort; Steven T. Taylor; July p.44

The Basics of Industrial Ventilation Design; R. Parks Lee; November p.29

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; W. Mark Pierce, Jolanda N. Janczewski, Brian Roethlisberger, Mike Pelton, and Kristen Kunstel; November p.51

Technology Award Case Study: Retrofit for a College Campus; Robert L. Cox; November p.59

Filtration

Chemical Filtration of Indoor Air: An Application Primer; Michael A. Joffe; February p.42

Technology Award Case Study: Environmental Conditioning for Textile Yarn-Spinning Mill; Mark Gengler; June p.74

Series Fan-Powered Boxes: Their Impact on Air Quality and Comfort; Steven T. Taylor; July p.44

Effectiveness of Auxiliary Air Cleaners in

Reducing ETS Components in Offices; W. Mark Pierce, Jolanda N. Janczewski, Brian Roethlisberger, Mike Pelton, and Kristen Kunstel; November p.51

Fire Safety

Evaluating Smoke Control and Smoke Management Systems; David M. Elowitz; March p.46

Freeze Protection

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Freezing

Control of VAV Systems with DX Cooling: A Digital to Analog Conversion; Gil Avery; June p.59

Furnaces

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Gas

Unitary Engine-Driven Heat Pumps: A Status Update; Gary Nowakowski; December p.42

Gas Fired

Unitary Engine-Driven Heat Pumps: A Status Update; Gary Nowakowski; December p.42

Glass

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Health

Construction/Renovation Influence On Indoor Air Quality; Thomas H. Kuehn; October p.22

Heat Exchange

Water Loop Design for Ground-Coupled Heat Pumps; Steve Kavanaugh; May p.43

Heat Exchanger

Water Loop Design for Ground-Coupled Heat Pumps; Steve Kavanaugh; May p.43

Technology Award Case Study: Solving the Energy Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; Ron Nelson and Bagas Wardano; October p.32

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Heat Pump

Water Loop Design for Ground-Coupled

Heat Pumps; Steve Kavanaugh; May p.43

Radiant Heating for Thermal Comfort; Richard D. Watson and Kirby Chapman; July p.24

Experience with Commercial Ground-Source Heat Pumps; Andrew Morrison, Blair Clemes and Douglas Cane; July p.31

Oil Return Characteristics of Refrigerant Oils in Split Heat Pump System; Richard Radermacher and Sonny G. Sundaresan; August p.57

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Unitary Engine-Driven Heat Pumps: A Status Update; Gary Nowakowski; December p.42

Heat Recovery

Experience with Commercial Ground-Source Heat Pumps; with Andrew Morrison, Blair Clemes and Douglas Cane; July p.31

Technology Award Case Study: Solving the Energy Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Technology Award Case Study: Opportunity for Cogeneration; Ken Manning; October p.57

Unitary Engine-Driven Heat Pumps: A Status Update; Gary Nowakowski; December p.42

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Heat Transfer

Radiant Heating for Thermal Comfort; with Richard D. Watson and Richard D. Watson; July p.24

Unitary Engine-Driven Heat Pumps: A Status Update; Gary Nowakowski; December p.42

Heating

Radiant Heating for Thermal Comfort; with Richard D. Watson and Kirby Chapman; July p.24

History

The History of Sealed Refrigeration Systems; Bernard M. Nagengast; January p.S-37

- Chemical Filtration of Indoor Air: An Application Primer; Michael A. Joffe; February p.42
- Building Data Visualization for Diagnostics; Evan Mills, Allan Chen and Laura Demsetz; June p.63
- Refrigerant Leak Detection in Mechanical Rooms; Thomas C. Sorensen; August p.63
- Effectiveness of Auxiliary Air Cleaners

in Reducing ETS Components in Offices; W. Mark Pierce, Jolanda N. Janczewski, Brian Roethlisberger, Mike Pelton, and Kristen Kunstel; November p.51

Motors

Basic Motor Starters for HVAC Design Professionals; Robert E. Kohl; February p.59

Building Data Visualization for Diagnostics; Evan Mills, Allan Chen and Laura Demsetz; June p.63

Office Building

The Price of Commissioning Equals Cost Savings; Carl N. Lawson; January p.30

Noise

Series Fan-Powered Boxes: Their Impact on Air Quality and Comfort; Steven T. Taylor; July p.44

Oil

Oil Return Characteristics of Refrigerant Oils in Split Heat Pump System; Richard Radermacher and Sonny G. Sundaresan; August p.57

Piping

Experience with Commercial Ground-Source Heat Pumps; Andrew Morrison, Blair Clemes and Douglas Cane; July p.31

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; Ron Nelson and Bagas Wardano; October p.32

Pollution

Chemical Filtration of Indoor Air: An Application Primer; Michael A. Joffe; February p.42

The Sistine Chapel: HVAC Design for Special-Use Buildings; Charles E. Bullock, Frank Phillip and Walter Pennati; April p.49

What We Know, and Don't Know About Sick Building Syndrome; June p.51

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; W. Mark Pierce, Jolanda N. Janczewski, Brian Roethlisberger, Mike Pelton, and Kristen Kunstel; November p.51

Pressure

Basic Tips for Duct Design; Richard A. Evans and Robert J. Tsai; July p.37

Health Care Ventilation Standard: Air Changes per Hour or CFM/Patient?; John W. Marshall; September p.27

Technology Award Case Study: Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Pressure Loss

Basic Tips for Duct Design; Richard A. Evans and Robert J. Tsai; July p.37

Pumps

3 GPM/Ton Condensor Water Flow Rate: Does it Waste Energy?; Wayne Kirsner; February p.63

Water Loop Design for Ground-Coupled Heat Pumps; Steve Kavanaugh; May p.43

Experience with Commercial Ground-Source Heat Pumps; Andrew Morrison, Blair Clemes and Douglas Cane; July p.31

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; Ron Nelson and Bagas Wardano; October p.32

Technology Award Case Study: Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Radiant

Radiant Heating for Thermal Comfort; Richard D. Watson and Kirby Chapman; July p.24

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Radiation

Radiant Heating for Thermal Comfort; Richard D. Watson and Kirby Chapman; July p.24

Refrigerants

Identifying and Evaluating Alternatives to CFC-114 for Navy Shipboard Chillers; January p.44

Recycling of Air-Conditioning and Refrigeration Equipment in the US; Karim Amrane and Glenn C. Hourahan; August p.51

Oil Return Characteristics of Refrigerant Oils in Split Heat Pump System; Richard Radermacher and Sonny G. Sundaresan; August p.57

Refrigerant Leak Detection in Mechanical Rooms; Thomas C. Sorensen; August p.63

Pressure Enthalpy Diagrams For Alternative Refrigerants; H. Kruse and Jiufa Chen; October p.50

Refrigeration

The History of Sealed Refrigeration Systems; January p.37

Recycling of Air-Conditioning and Refrigeration Equipment in the US; Karim Amrane and Glenn C. Hourahan; August p.51

Technology Award Case Study: Solving

the Energy Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Research Reports

Radiant Heating for Thermal Comfort; Richard D. Watson and Kirby Chapman; July p.24

Oil Return Characteristics of Refrigerant Oils in Split Heat Pump System; Richard Radermacher and Sonny G. Sundaresan; August p.57

A Thermal Comfort Prediction Tool; Marc E. Fountain and Charlie Hui-zeng; September p.39

Effectiveness of Auxiliary Air Cleaners in Reducing ETS Components in Offices; W. Mark Pierce, Jolanda N. Janczewski, Brian Roethlisberger, Mike Pelton, and Kristen Kunstel; November p.51

Residential

Thermal Performance and Wall Ratings; Jeffrey E. Christian and Jan Kosny; March p.56

Sensors

Evaluating Smoke Control and Smoke Management Systems; David M. Elowitz; March p.46

Building Data Visualization for Diagnostics; Evan Mills, Allan Chen and Laura Demsetz; June p.63

Refrigerant Leak Detection in Mechanical Rooms; Thomas C. Sorensen; August p.63

Shipboard

Identifying and Evaluating Alternatives to CFC-114 for Navy Shipboard Chillers; Jane C. Bare; January p.44

Smoke Control

Evaluating Smoke Control and Smoke Management Systems; David M. Elowitz; March p.46

Solar

Simulation of a Double-Effect LiBr/H₂O Absorption Cooling System; Ron Nelson and Bagas Wardano; October p.32

Standards

Determining Ventilation Rates: Revisions to Standard 62-1989; Steven T. Taylor; February p.52

Evaluating Smoke Control and Smoke Management Systems; David M. Elowitz; March p.46

Radiant Heating for Thermal Comfort; Richard D. Watson and Richard D. Watson; July p.24

Technology Award Case Study: A Thermal Storage System For 3 Apartment Buildings; Taylor B. Bodkin; July p.52

1996 EDITORIAL INDEX

Refrigerant Leak Detection in Mechanical Rooms; Thomas C. Sorensen; August p.63

Technology Award Case Study: Solving the Energy Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Health Care Ventilation Standard: Air Changes per Hour or CFM/Patient?; John W. Marshall; September p.27

A Thermal Comfort Prediction Tool; Marc E. Fountain and Charlie Hui-zenga; September p.39

The Basics of Industrial Ventilation Design; R. Parks Lee; November p.29

BACnet™: Integrating Building Automation and Control Products Using the BACnet™ Protocol; H. Michael Newman; November p.36

Testing the Conformance and Interoperability of BACnet™ Systems; Steven T. Bushby; November p.45

Technology Award Case Study: Retrofit for a College Campus; Robert L. Cox; November p.59

Steam

Advances in Geothermal Energy Use; Ibrahim B. Kilis and Muhammed Eltez; October p.40

Technology Award Case Study: Opportunity for Cogeneration; Ken Manning; October p.57

Super Markets

Recycling of Air-Conditioning and Refrigeration Equipment in the US; Karim Amrane and Glenn C. Hourahan; August p.51

Technology Awards

Technology Award Case Study: Dual Fan, Dual Duct System Meets Air Quality, Energy Efficient Needs; Marc Shuler; March p.39

Technology Award Case Study: Plant Uses Closed-Capture Technology to Improve Indoor Air Quality Reduce Energy; John P. Cole; March p.44

Technology Award Case Study: Thermal Storage System Achieves Operation and First-Cost Savings; Edward J. O'Neal; April p.59

Technology Award Case Study: Evaporative Cooling System for Remote Medical Facility; Dennis Beaudin; May p.35

Technology Award Case Study: Controlled Climate for Preserving Art; Mark C. Scott; May p.39

Technology Award Case Study: Environmental Conditioning for Textile

Yarn-Spinning Mill; Mark Gengler; June p.74

Technology Award Case Study: A Thermal Storage System For 3 Apartment Buildings; Taylor B. Bodkin; July p.52

Technology Award Case Study: Solving the Dilemma at Seven Bridges Ice Arena; David Louria; August p.67

Technology Award Case Study: Waterloo Region Green Home; Stephen Carpenter; September p.43

Technology Award Case Study: Opportunity for Cogeneration; Ken Manning; October p.57

Technology Award Case Study: Retrofit for a College Campus; Robert L. Cox; November p.59

Technology Award Case Study: Heat-Recovery Incinerator for a Community Hospital; Dean Kenyon; December p.49

Chilled Water System Introduces Savings; Thomas L. Hattemer; December p.55

Testing

Identifying and Evaluating Alternatives to CFC-114 for Navy Shipboard Chillers; January p.44

Oil Return Characteristics of Refrigerant Oils in Split Heat Pump System; Richard Radermacher and Sonny G. Sundaresan; August p.57

BACnet™: Integrating Building Automation and Control Products Using the BACnet™ Protocol; H. Michael Newman; November p.36
